8/2-3 Nicole cutting board accidentally cuts 4 w/ 2 slices including a big gash on my 'arm-y' arm - dad instigat. as I try to leave - 'poking' me w/ insults, trying to go to school w/ nicole - whole family comes, I make a big scene in our front yard/driveway, neighbors see as we leave I point at the spectators now dining close in our neighbors driveway. Dad pretends to drive, while sitting next to me, lying and instigating - I grab wheel and we stop somewhere as mom forgets to direct me, everyone gets out I grab my school supplies 'Cascadia' 'Now' briefcase and try to leave w/ glasses but they give me painful eye problems my dad says 'I'll get used to them' and try to head to school by self which nicole follows and we drive to school together. Sx dim w/ Abil previous to this dream. Meth has not been in many recent dreams. I assume she's on medication w/ our my knowledge & mistrust/intoxication keeps her from interacting in my astral.
